

professional trainees through VA's affiliations with academic institutions. Among recent milestones:

The Robert Wood Johnson Foundation last year awarded VA a grant of \$985,595 to help train physicians in end-of-life care, including pain management.

The VA Office of Academic Affiliations recently awarded additional funding to nine VA medical facilities to support graduate education residences in anesthesiology pain management, including VA medical centers in Milwaukee, Wis.; Durham, N.C.; and Loma Linda, Calif. and the health care systems in North Texas, New Mexico, Puget Sound (Wash.), Palo Alto (Calif.), and North Florida-South Georgia.

#### NATIONAL PAIN MANAGEMENT STRATEGY

The complexity of chronic pain management is often beyond the expertise of a single practitioner, especially for veterans whose pain problems are complicated by such things as homelessness, post traumatic stress disorder and combat injuries. Additionally, pain management has been made an integral part of palliative and end-of-life care. The effective management of pain for all veterans cared for by VA requires a nationwide coordinated approach. To accomplish this, VA formed a team made up of representatives from an array of disciplines— anesthesiology, nursing, psychiatry, surgery, oncology, pharmacology, gerontology and neurology.

Funded by an unrestricted educational grant, VA is producing a Web-based physician education program aimed at end-of-life issues and an online forum for VA pain management in which more than 200 clinicians actively participate.

In December 2000, a pain management and end-of-life conference is scheduled to showcase innovation and effective practices within VA, address specialized topics with expert faculty and solve systematic problems that cause barriers to improving pain management care. Additionally, VA will set up programs to support clinicians in settings that are remote from pain experts, centers or clinics.

"Untreated or undertreated pain takes its toll not just in monetary loss but also in the psychosocial and physical cost to patients and their families. Pain can exacerbate feelings of distress, anxiety and depression. . . . When severe pain goes untreated and/or depression is present, some people may consider or attempt suicide. The message is clear: all those in pain have the right to systematic assessment and ongoing management of pain by health care professionals."— (The Journal of Care Management, November 1999)

#### ADDITIONAL STATEMENTS

#### IN MEMORIAM OF THE MEN AND WOMEN OF THE 14TH QUARTERMASTER DETACHMENT WHO LOST THEIR LIVES IN OPERATION DESERT STORM

• Mr. SANTORUM. Mr. President, I stand before you today to honor the tenth anniversary of a terrible tragedy that faced the men and women who serve in the United States Armed Forces. I speak about an attack carried out by Saddam Hussein that took the lives of brave men and women from the Commonwealth of Pennsylvania who

were proudly serving their country as members of our armed services. We are indebted to those who made the ultimate sacrifice for our country during that conflict, and they will remain in our hearts and memories forever.

The 14th Quartermaster Detachment of Greensburg, PA, was mobilized and ordered to active duty on January 15, 1991 in support of the Persian Gulf crisis. On February 25, 1991, only days after the Desert Storm conflict began, the 14th Quartermaster Detachment suffered the greatest number of casualties of any allied unit during Operation Desert Storm. An Iraqi Scud missile destroyed the building where the unit was being housed, killing 28 soldiers and wounding 99. Of those casualties, 13 members of the 14th were killed and 43 were wounded. Desert Storm ended only hours after this tragedy.

To recognize the supreme sacrifice that these men and women undertook for our great nation, Major General Rodney D. Ruddock, Commander, 99th Regional Support Command, will hold an anniversary ceremony on February 25, 2001 to honor the 14th Quartermaster Detachment of Greensburg, PA. During this solemn event, we will honor, not only the men and women who lost their lives 10 years ago, but all the men and women who serve in the Armed Forces and selflessly put their lives on the line every day in order to preserve our nation's freedom. We, as Americans, will remain eternally grateful for the sacrifices and true courage that our men and women in uniform display on our behalf in serving this great nation.

It is at this time that I ask my Senate colleagues to join with me in honoring the members of the 14th Quartermaster Detachment.●

#### 50TH BIRTHDAY OF THE GIRL SCOUTS OF CONESTOGA COUNCIL

• Mr. GRASSLEY. Mr. President, on the occasion of the 50th Birthday of the Girl Scouts of Conestoga Council, I would like to congratulate this fine organization.

Conestoga Council was formed in 1951 and presently serves nearly 4,000 girls in a twelve-county area in Northeast Iowa. The Council delivers traditional Girl Scout programming through troop meetings and activities, camp opportunities and educational learning. In addition, the Council supports eight in-school outreach programs for girls of diverse ethnic and cultural backgrounds. The Council has broadened its delivery approach by partnering with the Winnebago Council of Boy Scouts of America to offer day camp activities and experiences through Camp Quest to hundreds of children who would not otherwise have the opportunity to participate.

The Council continues to fulfill its mission of helping girls grow strong

with the assistance of hundreds of volunteers throughout Eastern Iowa. Thousands of girls' lives have been touched and enriched through their experience with the Conestoga Council.

Again, I would like to express my congratulations to the Girl Scouts of Conestoga Council for reaching this milestone and I wish them all the best as they continue to serve girls in Northeast Iowa.●

#### TRIBUTE TO COLONEL PAUL W. ARCARI, U.S. AIR FORCE, RETIRED

• Mr. WARNER. Mr. President, I rise today to pay tribute to Colonel Paul Arcari, United States Air Force, Retired—in recognition of his distinguished service to his country.

For nearly 46 years, first for 30 years in the Air Force, and later for The Retired Officers Association, Colonel Arcari has worked tirelessly for the men and women of the military.

Born in Manchester, CT, he entered the Air Force as a second lieutenant in 1955 and earned his navigator wings the following year. He amassed 4,400 flying hours with the Military Airlift Command, including 418 combat missions in Southeast Asia in the late sixties.

In 1969 Colonel Arcari was assigned as legislative analyst in the Office of the Secretary of Defense and Headquarters, U.S. Air Force. During the next 17 years, including 13 years as Chief of the Air Force Entitlements Division, Colonel Arcari earned the reputation as the Department of Defense's preeminent authority on military compensation matters. In addition to helping craft the All-Volunteer Force pay table and the military Survivor Benefit Plan, his inputs to the Senate Armed Services Committee proved invaluable in crafting the Nunn-Warner compensation enhancements that assisted in turning around the retention and readiness crisis of the late 1970's and early 1980's. He retired from active duty in February 1985.

Following retirement, Colonel Arcari joined The Retired Officers Association and served as Deputy Director and since 1990 as Director of Government Relations.

Under Colonel Arcari's professional stewardship, The Retired Officers Association has played a vital role as the principal advocate of legislative initiatives to improve readiness and the quality of life for all members of the uniformed service community—active, reserve, and retired, as well as their families.

Colonel Arcari has worked closely with, and has been a valuable resource for, the Senate Armed Services Committee as we enacted a wide range of much-needed improvements for our military personnel. His efforts in the areas of military compensation, retirement benefits, health care and fair cost-of-living adjustments, COLA, for
